HOW TO USE WEBEX

Our webinars use WebEx technology, which you will need to install on your device.

How to proceed?

1) First, make sure your browser uses **the latest version of Java**. To install it, go to www.java.com.

2) If you have never used WebEx before, you will need to **download a plug-in** that will allow WebEx to run in your web browser. Do it in advance: many users realize at the last minute that their installation is not ready ... Take the lead to avoid unpleasant surprises!

   Choose the right version:

   Firefox and Google Chrome -> click **here**
   Internet Explorer -> click **here**
   iOS (MAC) -> click **here**

Please find **here** a short explanatory video.

Problems joining the session?

-> if you forgot your username, click **here**
-> if you forgot your password, click **here**

Ready for a small test? Check here that your installation is ready for the next session!

When joining a session, bring if possible a headset and a microphone. This will allow you to have an optimal sound and will limit the noise when you are given the floor, for example if you have a question to ask.
